 Company Reg. No. 09092082

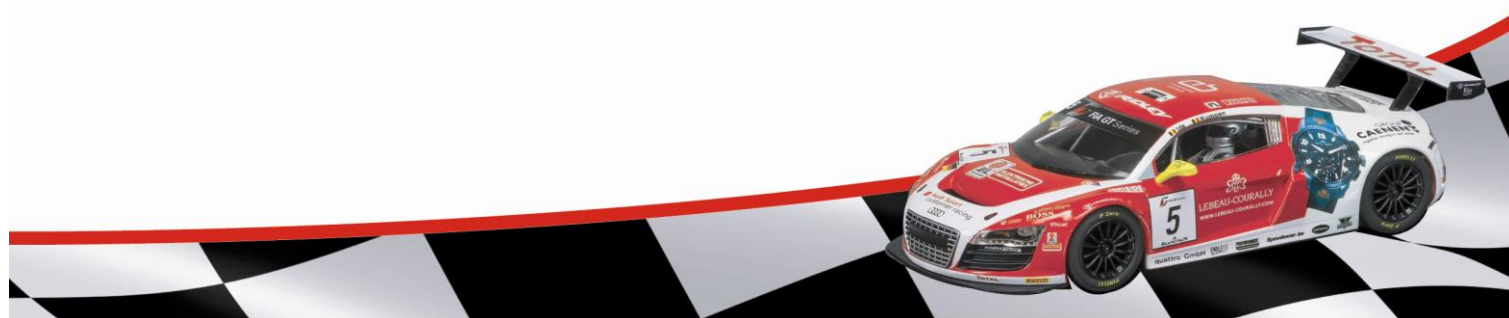

Our entire Chassis range is designed to fit the body shell with a degree of accuracy to mirror the original chassis shape. Some Chassis's have different body mount fixing points for improved performance and balance, other secure using the original moulded fixing points on the body or are supplied with an adapter.

Chassis's are supplied with all the fixing Body Screws and Grubs for Axle adjustment, Axle washers if needed. Various Shims are also provided to adjust ride height for the body.
